I. **GENERAL COMMENTS:**

Staff was cooperative and cordial. There was a discrepancy between the data reported on the State forms and the logs. Logs showed five secure detentions and four were reported on State forms. Part of this discrepancy could be due to the fact that there are two separate holding areas for minors, one for investigations. On the data sheet prepared for the State, it shows only two months of data for investigations and ten months for regular police station. Additionally, there seemed to be ten days in December of 2013 with no minor secure or non-secure detentions documented.

II. **RECOMMENDATIONS (if any):**

Discern the difference in reported numbers and apparent missing data from December 2013. Perhaps organize data in one binder by month so that data does not exist on same page for two separate months.
