

November 14, 2017

Dear Commission Members,

Thank you for your ongoing interest in and support of San Pasqual Academy. It is greatly appreciated!

The following are a few comments on your recommendations

#### 1. EDUCATION

In spite of the confusion with the SARC report, both SDCOE and JJC members verified that SPA classes are and have for several years, been A-G approved for both UC and CSU systems.

#### 2. PSYCHOTROPIC MEDICATION

We agree with JJC's interest in the use of Psychotropic Medication, and will work with the Commission to gather the necessary data for the next Inspection. We also agree that this request is "labor intensive" and would ask for guidance on how the other Inspection sites have met this request?

#### 3. EXPANSION OF YOUTH POPULATION

We thank the Commission for this recommendation and will work with those involved to expand the use of this program.

#### 4. ENRICHMENT ACTIVITIES

We support this recommendation and will continue to work with SDCOE and our partners to expand the enrichment activities.

Thank you again, and please contact me with any question or concerns.
